## **MICRO-DERMABRASION**

### **Prices range from £59.00**

#### **The gentle way to resurface and rejuvenate your skin**

Micro-dermabrasion is a very effective, gentle and pain free method for long lasting regeneration and rejuvenation of the face and body.

Finest micro crystals gently remove dead skin cells, which promotes cell regeneration.

An applicator which uses low pressure applies micro crystals onto the skin. This process gently removes dead skins cell layer by layer.

#### **Who is Micro-dermabrasion suitable for?**

Micro-dermabrasion can be tailored to suit most skin types, by firstly choosing the appropriate crystal coarseness. There are some skin types which are contra-indicated to this treatment, such as hyper-sensitive skin or post chemically peeled skin. Our therapists can decide this for you. We can also carry out a test patch on the skin to see how it responds before carrying out a full treatment.

For best results we recommend a course of treatments, the duration and frequency of which depends on the individual skin type. The treatment shows a successful result after a minimum cycle of six treatments at weekly intervals.

Micro-dermabrasion successfully treats the following conditions:

- **Impure skin**
- **Aged skin**
- **Age spots**
- **Acne and acne scarring**
- **Superficial scars**
- **Minor wrinkles**
- **Skin damage caused by light and sun light**
- **Stretch marks and cellulite**
- **Superficial thread veins are reduced.**

#### **The results**

- **Radiant fresher, younger looking skin.**
- **Skin is more resilient, balanced and smoother.**
- **Natural and light caused aging is reduced.**
- **Cell regeneration and improved circulation takes place.**

- **More even and radiant complexion.**
- **Active substances penetrate the skin much more readily.**
- **Skin is tightened due to controlled mild trauma, which stimulates the collagen production in the dermis.**
